## WIRELINE COMPETITION BUREAU ANNOUNCES RESULTS OF RATE-OF-RETURN CARRIERS THAT ACCEPTED OFFER OF MODEL SUPPORT

### WC Docket No. 10-90

Today, the Wireline Competition Bureau (Bureau) announces that 216 rate-of-return companies have submitted letters electing 274 separate offers of Alternative Connect America Cost Model (A-CAM) support in 43 states.<sup>1</sup> A list of all carriers that submitted a letter is attached to this Public Notice.<sup>2</sup> The Bureau has totaled the amount of model-based support for electing carriers and determined that model-based support and transition payments would exceed the overall 10-year budget set by the Commission by more than \$160 million annually.<sup>3</sup>

In the *Rate-of-Return Order*, the Commission indicated that if demand for the model exceeded the additional funding allocated to the voluntary path to the model, it may consider whether circumstances warrant an additional allocation of up to \$50 million annually.<sup>4</sup> The Commission acknowledged, however, that “other measures may be necessary” if demand for the voluntary path to the model is so great that the funding per location cap would need to be set below \$146.10 per location to remain within the available budget.<sup>5</sup>

---

<sup>1</sup> On August 3, 2016, the Bureau announced the offers of model-based support to rate-of-return carriers with a deadline of November 1, 2016 to indicate, on a state-by-state basis, whether they elect to receive model-based support. *Wireline Competition Bureau Announces Support Amounts Offered to Rate-of-Return Carriers to Expand Rural Broadband*, WC Docket No. 10-90, Public Notice, 31 FCC Rcd 8641 (WCB 2016) (*A-CAM Offer PN*); see also *Wireline Competition Bureau Releases Report for Alternative Connect America Cost Model with Minor Corrections*, WC Docket No. 10-90, Public Notice, 31 FCC Rcd 8959 (WCB 2016); *Wireline Competition Bureau Announces Corrected Offers of Alternative Connect America Cost Model Support to Companies Affected by Technical Correction*, WC Docket No. 10-90, DA 16-1241 (WCB rel. Oct. 31, 2016).

<sup>2</sup> Carriers electing model-based support will not begin receiving such support until the Bureau issues a public notice authorizing the Universal Service Administrative Company to disburse the appropriate amounts. In the *Alaska Plan Order*, the Commission noted that those Alaska rate-of-return carriers that are unable to offer even 4/1 Mbps service would not be permitted to elect A-CAM support. See *Connect America Fund et al.*, WC Docket No. 10-90 et al., Order, 31 FCC Rcd 10139, 10142, n.18 (2016).

<sup>3</sup> The Commission provided that up to \$150 million annually in additional funding would be available for carriers electing the model path. *Connect America Fund et al.*, Report and Order, Order and Order on Reconsideration and Further Notice of Proposed Rulemaking, WC Docket No. 10-90 et al., 31 FCC Rcd 3087, 3112-13, para. 62 (2016) (*Rate-of-Return Reform Order*); see also *Connect America Fund et al.*, WC Docket No. 10-90 et al., Order, 31 FCC Rcd 6856, 6857, para. 6 (WCB 2016) (clarifying that, for the purpose of determining whether the additional A-CAM support and transitional payments exceed the \$150 million budget, the Bureau will consider the annualized amount that would be disbursed over the ten-year term).

<sup>4</sup> *Rate-of-Return Reform Order*, 31 FCC at 3112-13, para. 62.

<sup>5</sup> *Id.* at 3113, para. 62 n.136.

As noted in the *A-CAM Offer PN*, measures to prioritize among electing carriers could, for instance, include selecting among electing carriers based on their level of deployment (either their percentage of locations lacking 10/1 Mbps or the absolute number of such locations) or the average cost per location.<sup>6</sup> Subsequently, parties have submitted several recommendations into the record.<sup>7</sup> Parties are encouraged to submit *ex partes* into the record no later than **Monday, November 14, 2016**, on what measure or combination of measures should be considered to address the high level of interest in A-CAM model-based support.

*Ex parte* filings may be filed on or before the date indicated above using the Commission's Electronic Comment Filing System (ECFS). See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998).

- Electronic Filers: Comments and replies may be filed electronically using the Internet by accessing ECFS: <http://apps.fcc.gov/ecfs/>.
- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number.

Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

- All hand-delivered or messenger-delivered paper filings for the Commission's Secretary must be delivered to FCC Headquarters at 445 12th St., SW, Room TW-A325, Washington, DC 20554. The filing hours are 8:00 a.m. to 7:00 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.
- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743.
- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 445 12th Street, SW, Washington DC 20554.

---

<sup>6</sup> Because support would continue to be calculated based on a \$200 per location funding cap, there would not be a second, revised offer.

<sup>7</sup> See, e.g., Letter from Jason B. Williams, Chief Operating Officer, Blackfoot Telephone Cooperative, Inc., to Marlene H. Dortch, Secretary, Federal Communications Commission, WC Docket No. 10-90 (filed Oct. 20, 2016) (arguing that any budget controls for the A-CAM support methodology must be designed in such a way to ensure that as many RLECs as possible continue to have a choice to elect model-based support); Letter from Cheryl L. Parrino, Parrino Strategic Consulting Group, to Marlene H. Dortch, Secretary, Federal Communications Commission, WC Docket No. 10-90 (filed Oct. 15, 2016) (presenting options for meeting the budget if elections for the A-CAM exceed the budget); Letter from Keith Oliver, Home Telephone Company, to Marlene H. Dortch, Secretary, Federal Communications Commission, WC Docket No. 10-90 (filed Oct. 14, 2016) (urging the Commission not to eliminate carriers electing the A-CAM whose model-based support is less than legacy support from the A-CAM in any effort to resolve budget concerns); Letter from Gerard J. Duffy, Blooston, Mordkofsky, Dickens, Duffy & Prendergast, LLP, to Marlene H. Dortch, Secretary, Federal Communications Commission, WC Docket No. 10-90 (filed Sept. 26, 2016) (indicating a willingness by certain carriers to accept revised A-CAM offers where the proportionate support reductions would be greater than the proportionate build-out obligation reductions).

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to [fcc504@fcc.gov](mailto:fcc504@fcc.gov) or call the Consumer and Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (tty).

This proceeding is a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules.<sup>8</sup> Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b). In proceedings governed by rule 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (*e.g.*, .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules.

Submissions will be publically available online via ECFS.<sup>9</sup> These documents will also be available for public inspection during regular business hours in the FCC Reference Information Center, which is located in Room CY-A257 at FCC Headquarters, 445 12<sup>th</sup> Street, SW, Washington, DC 20554.

For additional information on this proceeding, contact Katie King ([Katie.King@fcc.gov](mailto:Katie.King@fcc.gov)) of the Wireline Competition Bureau, Telecommunications Access Policy Division, (202) 418-7400.

- FCC -
